

March 16, 1978 Thurs.

Dear Vicki and Jimmy,

Our weather is beautiful and the flowers are out. I have a bouquet of daffodils in the house which I picked from our garden. Yesterday we started working in the yard but the grass is still too wet to cut. It is very long so dad will try mowing it this afternoon.

Tomorrow I am going to Enumclaw with Marge Jewett to visit Dorothy Donaldson who is a former bridge friend. She has been staying with her daughter there and we are going to her funeral. I hate to go but I think it will be nice to see Marge and Marty is also going to ride with us. Many of my bridge friends will be going.

I still get in my walking several times a week. I am going to stop sewing now for awhile because there is so much work I want to get done in the yard.

I have had letters from the cousins, the ones I sent copies to of the Close family and they were so happy to get them. They also realize how much work you have done on it.

Mary's spring vacation starts next week and they plan to go to the ocean for a few days so Diane will stay with us. We plan to take her some place every day, like the Seattle Center and the zoo and the market. She loves playing Tarzan, but that does get a little tiring.

I am a week ahead of myself I just noticed, so the spring vacation is in two weeks, starting the 20th. Aunt Stella is planning a family party the 18th. We wish you could be here.

I hope the trip to San Diego was what you wanted it to be, Jimmy. The office just called dad and he is going to work Monday. He can work as little or as much on this new contract they have so it is a perfect deal for him. He cooked dinner last night, which was corned beef hash and it was very good.

I will stop for now and take this down to the post office. I should walk but I don't think I will this time.

Love,

Mom.
